Hasting's Assessments.

HASTINGS, Neb., June 11 .- [Special Tele gram to Tue Bee. |- The tax payers of the city are up in arms against the recent assessment made by the assessors. After considerable agitation and labor the assessors have reduced the assessment 25 per cent. The taxes heretofore on city property have been outrageously high, compared with the sly low assessment made on farm adjoining the city. The matter will be followed up by property holders, who are bent on getting an equitable adjustment before the board of equalization. It is conceded by everyone that the city is paying from 70 to 80 per cent. of the tax of the

OMAHA MAN BADLY HURT.

Peter Ward Falls Under the Cars at Wahoo.

WAUGO, Neb., June 11,- Special Tele gram to THE BEE |- About 4 o'clock this morning a young man attempted to get on an east-bound freight on the Union Pacific while the train was passing the depot platform at ten miles an hour. He slipped and fell beneath the wacels, which passed over his right leg between the knee and ankle, erushing the leg to a jelly and derailing one set of trucks of the car which passed over him. Night Operator Johnson heard the cries of the unfortunate fellow and had him brought into the depot and summoned a doctor, who dressed the wounded leg. The physician says the leg will have to be am-putated. The victim of the accident gives his name as Peter Ward, and his age as nineteen. He says his father is Patrick Ward and that he works in the Union Pacific shops at Omaha. The young man was steal-ing a ride on a west-bound freight and was ejected from the train at this place a few hours before.

Camp Life at Geneva. Geneva, Neb., June 11 .- [Special Telegram to THE BEE. |- In the competitive drill of the Sons of Veterans vesterday, Gereva won by a score of 83 2-5 against 77 for No. 1 of Omaha. The judges were Captain George C. Hill of Indianola, Fillmore Dorsey of Blair and E. J. Warner of Lyons. The decision of the judges gave general satisfaction and they performed their duty in a creditable manner.

The election of officers was closely contested and resulted as follows: Colonel, F. P. Corrick of Stockham; lieutenant colonel, S. S. Hartman of Kearney; major, G. H.

AN APPEAL FOR NEUTRALITY.

Address to the Powers by the Junta of the Chilian Congressional Party.

DICTATOR BALMACEDA IS NOT IN IT.

DeLesseps to Be Prosecuted for Misleading Panama Canal Investors-Interview with Philip Armour at Carlsbad.

London, June 11 .- A note has been issued here addressed to the powers by the junta of the congressional party of Chili. The junta's note is signed by the congressional party's agents, Senors Matte and Ross. It speaks of recent lawless acts upon the part of "the dictator"-Balmaceda-and claims for the provisional government belligerent rights, on the ground that it is an organization sufficiently regular and responsible to Chilians and to foreigners and able to make itself felt and respected by force of arms. The note maintains that the junta has been vested with regular constitutional authority by the congress which was elected in March, 1888. The note continues by stating that the congressional party has undisputed jurisdic-

over four of the richest provinces of Chili, comprising over half the pepulated territory of the republic. The congressional party also claims that it is growing in military power and that its naval supremacy is indisputable, enabling it to maintain sovereignty over its territory

and to threaten the provinces of the dictator,

In view of these facts the provisional government says that it is called upon to main-tain international and commercial and other relations, and therefore claims that it is entitled better than the government to be considered a perfect international body. The note adds that the exigencies of the future rest with the congressional party, which "from the first represented the law and the right and now it represents force." The congressional party, therefore, appears to the 'elevated sentiments of justice and numanity entertained by the foreign govern-

ments to preserve the laws of neutrality" in the struggle now proceeding in Chili. President Balmaceda's Side.

London, June 11 .- President Balmaceda has sent out the following dispatch to Router's telegram company from Santiago: Surprise and disdain have been produced here by the false calumnies which the rebels publish in the European press. The rebel congress closed June 1. The congress lately elected works regularly. It has approved the act of the government and has invested it with extraordinary powers and authorized it to contract loans. Perfect order prevails. The army is well disciplined and is actuated by a great esprit de corps. The government cannot be vanquished by the reteis, who are only trying to prolong the struggle to enrich themselves of the nitrate deposits. They have undertaken no expedition against the government forces and are completely discredited. The war ships Lynch and Condell have gone northwest. The discipline of the troops is irreproachable. British, French and Ger-man commerce will be prejudiced by the rebels remaining at Tarapaca."

Would Not Accept Amnesty. lquique, (via Galveston), June 11.-The amnesty proposed by the American minister at Santiago to Balmaceda was not accepted, but the latter offered to entertain a proposition for an arrangement, he indicating its basis. To this the congressional party refuses to assent. The armed transport Imperial, with the torpedo cruisers Lynch and Condell, landed a party at Tocopilla yesterday which cut the state telegraph lines and then re-embarked. Then these ships made a demonstration at Antofogasta, similar to the demonstration at Pisagua and Iquique. No damage is reported. The superior speed of those ships enables them to keep clear of the congressional ships.

Philip Armour Interviewed. CARLSBAD, June 11.-Mr. P. D. Armour, of Chicago is here at present with his invalid wife, on account of whose health he came to Germany. Mr. Armour said that he had just received a dispatch from his home stating that ground had been broken at Toleston, Ind., for the new stock yards in which he,

Mr. Morris and Mr. Swift are interested. "We have 4,000 acres of land there," he said, "where we propose to establish packing houses and stockvards. We have fine railway accommodations, pure water and excellent sewerage. We shall not be so cramped for room as at the old stockyards, which are altogether out of place in such close proximity to the best part of Chicago. We propose to issue \$10,000,000 of stock, we will divide among the packers and dealers who follow us to our new quarters. The pro-ceeds of the sale of this stock will enable us to put up all the necessary buildings and im-provements upon our land."

"Will the other packers follow your ex-

ample and desert the old stockyards?" asked the correspondent.
"They cannot help themselves," answered

Mr. Armour. "We three practically control the business, the others must follow. Be-sides it is to their own advantage. In the old stockyards the charges are so high that it scarcely pays to do business there. We shall be able to give accommodations at much more moderate rates. You see, the old stock yards, which cost originally about \$100,000, were sold some eight months ago to an En giish syndicate for \$35,000,000. The investors want to get their interest on this immense sum, consequently high charges are neces-

"But what will become of the \$25,000,000 invested when you and all the other great houses move away? Will it not be practically

"I am not worrying about the English investors. I feel sorry for them, but I must look out for my own interests and the interests of the community first."
"Will you not lose heavily on your packing houses and other improvements which you

have erected in the old stock yards?"
"They are worth very little," replied Mr. "They have served their uses. Be sids, all other motives there are sanitary reads swhy we should make this change. In the new quarters we shall have the medical perfect arrangements for the proper esa-coation and packing of pork. You know the objections which are made both, in Germany and France against American pork. I think Germany has a perfect right to demand that food products imported into her terri-tory should be perfectly healthy. I and all the other great packers are willing to meet all reasonable demands in this regard. Our own interests, as well as common commercial honesty, cause us to see that no disassed meat should be exported from our places. The first piece of trichihosis exported from Amerca into Germany would cause a renewal of he ordinance forbidding the importation of American pork.

"But those ordinances are still in force," said the Associated press correspondent. "Do you think that they will soon be repealed?"

"I have no doubt," said Mr. Armour, "that

as soon as the German government is convinced of the proper examination in America it will allow the importation of our pork. Of that examination we cannot now give full preference. We are willing to have our goods examined upon their entering Ger-many, and I can state for myself and all the many, and I can state for myself and all the other packers that we take the utmost care to send nothing except sound meat. We are constantly looking for new markets for our products and we should be very careful not to ruin newly opened avenues of trade by any carelessness in handling and shipping diseased meat. We have too many close social and business relations with Germany to have your a commercial war.

keep up a commercial war. When once the government is satisfied of our perfect good faith the whole question will be settled." Discussed Grain Duties.

Braux, June 11,-In the lower house of the diet today Herr Rickert made a motion to the effect that the government should submit to the house the material upon which Chancellor Von Caprivi based his recent peech upon grain duties.

The chancellor opposed the motion. The government, he continued, was convinced that there was no distress existing from the duties now levied on grain, but in conse quence of the agitation which had been aroused in regard to the matter the government had since consulted a number of private parties and naturally could not submit these reports to the house, and he, the chan-cellor, was not in a position to be able to men-tion the names of the persons who had been Herr Rickert made a most sensationa

speech, during which he said it would be found 'necessary to recall the man who alone was able to direct the government." He charged the government with endeavoring to "silence these who were defending the in resterests of millions against the minority."
Potatoes, he continued, hat already replaced bread as food for the people and they (potatoes) were also placed at an exorbitant price. His party would not rest until the duties on grain were abolished.

The minister of agriculture promised to bublish definitive figures in July, when he could make more favorable announcements regarding wheat, rye and potatoes than on previous estimates.

Herr Rickert taunted the government with vacilation and condemned what he termed the boldness of General Vo. Caprivi's statement regarding grain duties. He declared that if the weather became more unfavorable the duties must be absolutely removed.

BURIAL OF SIR JOHN.

In Immense Concourse Follows the Remains to the Grave.

KINGSTON, Ont., June 11 .- The remains of the late Sir John Macdonald were committed to their last resting place today in Cathedral cemetery. The entire morning was spent in viewing the remains in the city hall. Twenty housand persons passed the bier. The pro cession was the grandest ever seen in Kingston. It was over two miles long and occupied over forty minutes in passing a given point.

The parade moved at 2:45 o'clock. At that time three miles of Princess street were lined with spectators. Not less than forty thousand persons viewed he solemn advance. The parade was un or civic control. The stores were closed and or ped in moutaing. The order of the parade was direct from the city hall along Ontario and Princess streets to Cataraqui. The pall-bear-ers were the members of the cabinet and Hon. J. C. Aikers, ex-lieutenant governor of by Hugh J. Macdonald, Colonel McPherson and Joseph Pope, private secretary. The hearse was flanked by eight artillerymen, who on arriving at the last resting place took the casket containing the remains of Canada's greatest statesman and carried i

KANSAS EIGHT HOUR LAW.

Its Application May Cause the Closing of State Institutions. KANSAS CITY, Mo., June 11 .- A special

from Topeka says: The law passed by the recent legislature providing that eight hours shall be a day's work for all employes of the state will necessitate the closing of the state institutions unless special arrangements are made for keeping them The work of these institutions cannot be done if the present force of employes works only eight hours. To do the work properly will necessitate 1,400 new employes. The appropriations passed by the late legis-lature will not permit of the employment of

any more employes.

The question of working the present forces over eight hours a day was referred to Attorney General Ives. He gives it as his opinion that the authorities who permit employes to work over eight hours a day will violate the law and sufficient the law and suf the law and subject themselves to heavy nes. The governor will probably call a special

session of the legislature to pass emergence appropriations so as to permit the employ nt of the necessary extra number of state THE WEATHER FORECAST.

HIS INTENTIONS WERE GOOD.

Timber Culture Entries Not Forfeited by Failures to Raise Trees.

FINDING OF THE INTERIOR DEPARTMENT.

Other Decisions of the General Land Office Passed Upon by the Secretary-Omaha Federal Building Offices.

WASHINGTON BUREAU OF THE BEE,) 513 FOURTHENTH STREET, WASHINGTON, D. C., June 11. The secretary of the interior has affirmed the decision of the commissioner of the general land office in dismissing the contest against the timber culture entry of George I. Williamson in the Bloomington district. Williamson had made three attempts to force trees to grow and failed each time. His entry was contested by William M. Strickland, and the local officers sustained the contest. Williamson appealed and the commissioner reversed the local men. The secretary sustains the commissioner on the ground that the attempt to cultivate trees was made in good faith. In the case of the United States vs A. Van Wormer, Sarah Selden transferce, involving a com-muted homestead entry in the Valen-tine district, held for cancellation by the commission, the secretary modifies the decision and orders the entry passed to patent because no bad faith is shown and no contest against the entry has been made. The secretary has also approved the action of the general land office in holding for cancellation the preemption declaratory statement of

James Barry for a quarter section in town-ship 28 north, range 51 west, Chadron district. SEEKING NEW QUARTERS. "I expect to hear from the custodian of the Omaha federal building Monday," said As-sistant Secretary Crounse tonight, "whether the United States courts, the posterfice of the revenue offices are to be removed from the revenue offices are to be removed from the government building. The depart-ment is of the opinion that the revenue office should be moved but the collector seems to think that there are good reasons why he should be allowed to stay where he is. If he can fur-nish any reasons which outweigh the very weighty ones against him he may stay, but I am inclined to think that by the end of next week his office will be ordered to move, and the chances are that it will be located in Tir. Bre building, unless the collector has other preferences which the department can consider favorably." PERRY S. HEATH.

Preparing for a Closed Season.

Washington, June 11.-The government actively engaged in preparing to carry out the plan for a closed season in Behring sea this year. It is understood that the force of revenue cutters now in those waters is to be supplemented by one or more of the naval vessels now in Chilian waters at the earliest possible moment. The British gov ernment wishes the agreement to be strictly observed. Minister Pauncefote proposed that authority be given the British govern ment to station an agent on the seal island-to make sure that the North American commercial company does not kill more than the 7,500 sears fixed in the agreement. The request was promptly denied by the president, who felt that it was a reflection upon the good faith of this government and could not be permitted, but he saw fit to allow the British agent to visit the islands to informalascertain the exact state of the seal

Pierce Slated for China. New York, June 11 .- According to special from Washington, it is reported there that President Harrison has decided to send ex-governor and ex-Senator G. A. Pierce of North Dakota as our representative to China. Mr, Pierce is now an editorial writer on the Minneapolis Tribune. He is a native Indianan and his personal relations with Presi dent Harrison were of so intimate a nature hat during his senatorship his utterances re garding administration matters were usually ecepted as authoritative. The Governor Pierce to China will, it is thought be followed by the appointment of ex-Senator Blair as minister to Japan. The salary is \$12,000 a year, the same as that attached to the Chinese mission, while the court to which ne will be accredited is a far more desirable

one from an American standpoint. Orders to Customs Officers. Washington, June 11 .- The treasury de partment has issued a circular to the cus oms officers enjoining the strict enforcemen of the act approved August 30, 1890, prohib ting the importation of adulterated article of food and drink and providing for the in pection of foreign cattle, etc.

Trumbull in Washington. Washington, June 11.-Senator Trumbull indicted by a California court on the charge of violation of the United States neutrality laws in connection with the insurgent vesse

NEBRASKA'S NEW CHANCELLOR. Sketch of the Educational Career of Prof. Canfield.

TOPEKA, Kan., June 11 .- | Special Telegram to THE BEE. |- Prof. James H. Canfield, born in Brooklyn, was the son of Dr. Canfleid, a distinguished Episcopal ciergyman, for many years pastor of one of the leading Brooglyn churches. He was educated at the Brooklyn polytechnic institute and Williams corlege. After graduation he was engaged for several years in rallroad construction is Iowa and Minnesota. He subsequently was admitted to the bar and practiced law in Michigan. His tastes, however, were scholastic and in 1877 he became professor of political economy and history in the Kansas university, then a young and struggling institution. For several years he carried the English department in addition to his own. He soon became known throughout the west as one of the leading educators. Largely to his untiring labors has been due the extraordinary growth and presserity of the extraordinary growth and prosperity of the Kansas university. Since 1877 his chair has been several times divided until at the present time he is devoting himself exclusively to American history and civies. In 1885 he took hold of the National Teachers' association, an organization numbering at that time some hundreds of teachers. He was several years secretary and afterwards president of the association. Under his administration the membership increased to more than five thousand. He was desired almost unanimously for chancellor of the Kansas state university a year ago, but was not selected for a rea-son of a temporary, but conclusive nature. He was strongly urged for the senate to succeed Ingalis by the best mem-bers of all parties, but flatly declined to be a candidate. He is a republican without rabid partisan feeling, and an Episcopalian and active in church work, and is an extraordinary worker and enjoys greater popularity than any other man in Kansas. Prof. Canfield is a fine instructor, has the broadest pos sible scholastic methods and opinions, and is altogether a man of marvelous goodness, ver-

can contrive to keep him.

EMMET'S ADDRESS.

Redmond and O'Connor, Parnell's Envoys, Answer It. Cuicago, June 11. - The address telegraphed om New York, in which Dr. Thomas Addis immet, president of the National Federation of America, pronounced Mr. Parnell unworthy of further trust, was answered today by Redmond and John O'Connor, the Irish members of parliament, representing Paraell in the United States. The unswer says that Emmet, president of the federation, and Kelly, treasurer, represent only themselves. The feneration is composed of a few gentle-men of social distinction, who "resolved" themselves into an organization, but who ever sought the sanction of a public meet-ing, well knowing that the mass of Irish-

Americans is against them.

The address says: The statements in Mr.
Emmet's circular are founded on falsehood. He criticises the circular severely and lays blame for the rupture in the Irish party on Mr. Gladstone's interference. It said Mr. Parnell does not stand in the way of unity and that he has twice offered to resign if the party would get from the liberals an assurmee that in their measure of home rule they will introduce such provisions as will be satisfictory to the majority of the irish representatives. Twice his oppo-nents accepted this offer and sought the required guarantees and twice they failed to secure them. If these assurances were thought necessary then they are necessary still, and the liberal party has only at any time to satisfy Mr. Parnell's demand, which has been twice endorsed by the 1rish party, to ease the situation and end the quarrel.

FEARFUL FATE OF A CHILD.

Left by its Parents with a Servant it is

Fatally Burned.

PLAYED WITH MATCHES AND PAPER.

Terrible Accident Which Overtook Winsome Little Mamle Gellenbeck - Clothing Burned from Her Body-Can't Recover.

Little five-year-old Mamie Gellenbeck, daughter of George F. Gellenbeck, living at 611 North Seventeenth street, was playing with paper and matches yesterday afternoon

The parents had gone to the Council Bluffs races, leaving the child in charge of a colored servant girl. The servant was doing some work in the

cellar and while there the child got to lightng paper. When her clothing caught fire the baby

ran towards the kitchen screaming as loud as she could. Dan C. Hereley, a neighbor, heard the screams and ran to the baby's assistance. The colored girl had come up from the cellar and was about to throw a pall of water over the child. Mr. Herely prevented this and wrapped a sheet about the little form, by this time was all ablaze. which Other neighbors came in and doctors sent for. A trip was made to the county poor farm by Mr. Hereley to procure a jar of

prepared paste which is used for burns, None could be obtained there, but a far was found at the court house, and as soon as possible applied to the suffering baby.

Nearly every bit of clothing had been ourned off and the hair was nearly all destroyed. The child's face and nearly the whole body was black, and the skin was

cracked open in a number of places. Dr. Keogh was engaged in dressing the burns when the parents arrived home. At 8 clock the physician said that he did not think the child could possibly pull through. Even if the little one lived for a month or more it would probably die, as persons so severely burned generally do.

PHILADELPHIA BANK TROUBLE

Reply of President Barrison to Mayor Stuart's Letter. PHILADELPHIA, June 11.—Following is a copy of President Harrison's reply to Mayor

Stuart's letter of June 5 regarding the affairs of the suspended Keystone bank:

Sir: I am in receipt of your letter of June 5 and in reply thereto bez to say: The comptroller of the currency is, under the law, in immediate and in a large sease independent control of all matters pertaining to introlonal banks. Everything relating to the examination of such banks, to the appointment of receivers and to the win ling up of insolvent banks is under his direction. An examination of the relations of his office to the Keystone bank will, therefore, disclose all that has been done by the treasury department. The secretary of the treasury was alsent when your letter was received, but upon his return this morning I conferred with him and the comptroller and as a result of that conference the comptroller stated that he would prepare at once a full statement of his entire action in connection with the Keystone national bank of Philadelphia and would submit his report without delay to the secretary of the treasury, who will transmit a copy to you. Your request that a committee of the council or its expert accountants be allowed to examine and records of the bank has been referred to the comptroller, with the suggestion that under the advice of the district attorney the receiver permit an examination by a proper representative of the creditors into all of the suspended Keystone bank: the receiver permit an examination by a proper representative of the creditors into all matters and accounts, and particularly of accounts where frauds or irregularities are charged, with such observation of confidence of the interest of the creditors of the bank as the end of public justice make necessary. I the end of public justice make necessary. I am sure you will find every officer of the government having any public duty connected with this matter desirous to co-operate with the creditors of the bank in all measures calcalated to protect their interests and to hold to proper accountability every person having guilty complicity with the failure. Very truly yours.

BENJAMIN HARRISON. In court today Assistant District Attorney Kinshe called the attention of the jury to a bill charging ex-City Treasurer Bardsley with embezzlement of \$39,000, and said: with embezziement of \$59,000, and said: "In view of the fact that Mr. Bardsley has pleaded guilty on seventeen bills of indictment, upon which a maximum punishment of affty or sixty years could be imposed, longer than any punishment the court may inflict, it would be useless to take up the time of the court in trying the remaining indictments against him. I propose to submit the bill without evidence and dispose of it." The bill was banded to the jury and a verdict of not

guilty taken.

Particulars of the conolulu Fire. San Francisco, Cal., June 11.-The steamship Mariposa, from Australia via Honolulu. arrived today. The steamer brings fuller particulars of the fire in the government warehouse at Honolulu on June 2. Several workmen had been soldering leaking kerosene cans at a shed a short distance from the warehouse, which was used solely for the storage of oats. The fire originated from the flames in the soldering furnace and the firemen were unable to get water from the plugs and the explosion of a number of drums of gasoline, of which they were sev-eral hundred in the warehouse, drove them to a distance. The fact that the warehouse was constructed of brick and from with but little woodwork and that there was scarcely any wind, sayed that portion of the town from destruction and a greater part of the oil, of which there were 35,000 cases of a cotal value at the Honolulu prices of \$300,000. It was owned by the Standard oil company. The rest was divided among several holders. There was also about two thousand gallons of gasoline in the warehouse, part of which was saved. The insurance is small.
